

SHARDLY P. ROMELUS

linkedin.com/in/shardlyromelus/ | github.com/sromelus

TECHNICAL SKILLS

FrontEnd: React, Javascript, JQuery, (HTTP)

BackEnd: Node, Express, Ruby, Ruby on Rails, RSpec, Enzyme, Git, GitHub, AWS

Databases: PostgreSQL, MongoDB, Sqlite3

PROJECTS

Portfolio: <https://shardlyromelus.herokuapp.com/>, <https://github.com/sromelus/Portfolio>

Tax Tracker: taxtraker.herokuapp.com, github.com/sromelus/tax_tracker

- App tracks mileage, earnings, and the amount of money needed to put save for taxes
- Built with Ruby on Rails, React, and a PostgreSQL database
- Designed a restful web API that allows users to get, post, update, and delete trip details
- Designed and developed the user interface layers using React

RELATED EXPERIENCE

Atten-X - <https://platform.attenex.io>

Boston, MA

Lead Software Engineer/Full-Time

August 2021 - Present

- Design and Develop scalable Node.js Api, migrating from PHP
- Designed and Built several major front-end feature with React
- Collaborated with the team to do code reviews and to make sure tickets are completed on time
- My contribution to Both the API and React help decrease campaign creation time by 30%
- Stack - Php, Node, React, Apache, AWS, Github

TheSmartSub - <https://www.thesmartsub.com>

Full Stack Rails Developer/contract

Remote

February 2021 - Present

- Worked with other dev to develop Rest Api to support both mobile and web
- Build and redesign landing page and enhancements to include a restyle of various pages
- Stack - Ruby, Rails, Postgres, S3, Heroku, Github

Atten-X - <https://platform.attenex.io>

Boston, MA

Full Stack Developer/contract

August 2020 - February 2021

- Developed quality mockups and prototypes
- Collaborated with backend dev to help launch a new client-facing feature
- Contributed to building a Php Rest API
- Stack - Php, JQuery, Apache, Lightsail, Github

FightPandemics

Boston, MA

Front-End Engineer/volunteer/part-time

August 2020 - October 2020

- Developed client-facing feature with react based on given prototypes
- Collaborated with teams and participated in daily standups
- Stack - Node, React, Docker

Launch Academy

Boston, MA

Apprentice Full Stack Developer

January 2019 - May 2019

- Completed an 18-week immersive bootcamp
- Learned core fundamental skills required to create functional and dynamic web applications
- Developed team-building skills through pair programming
- Built capstone project with Ruby on Rails and React
- Stack - Ruby, Sinatra, Rails, React, Postgres, Heroku

OTHER EXPERIENCE

McMahon Associates - Civil Engineering

Taunton, MA

Staff Engineer

January 2016 - March 2019

- Prepared standard design plans for private and public clients projects using AutoCAD Civil 3D
- Assisted in client contact and communication pertaining to specific projects as necessary

EDUCATION

University of Massachusetts

Amherst, MA

Bachelor of Science in Civil Engineering

Fall 2012 - Spring 2015
